

## HYDRAULIC ELEVATOR

The increase in demand in the European market during the last decade, in combination with the flexibility of the new European regulations, guided Alamex towards the design, certification and supply of hydraulic lifts.

The power module is the most comfortable option from an architectural point of view, since it can be located in the lower or basement part of the building.

Travel from 12 to 15 meters.

Smooth and quiet operation.  
Easily adapts to tight spaces.

In the event of a power outage, it has an alternative system that allows reaching the closest level, allowing the safe exit of passengers.

Energy consumption only on the rise.  
On the way down, use gravity without the need to consume.

low-cost installation and maintenance prices.  
Fewer number of components.
